## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US 3,397,835 to Henning. Henning discloses the same invention including a method and means of forming an easy-open corner portion of a bag comprising a starter nick (8,9) in a skirt of the bag, forming a score line in the form of a perforation corresponding to a predetermined tear line wherein the starter nick and perforation bypass the seal line of the bag to avoid severing the seal line during formation of the easy-open corner portion (see column 1, lines 20-40).

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Albright, Smiley, Moseley et al, Lane, Jr. et al, Kopp et al, Su, and Morton are cited to show related references.
